## Faculty Grading Guidelines & Moderation Procedure

*Effective Date: June 1, 2024*

---

### 1. Confidentiality and Access Restrictions

This document is strictly confidential and reserved for Faculty Members, Department Chairs, and Examination Committee members. Distribution to students is strictly prohibited under institutional regulations.

### 2. Continuous Assessment Weightage

All course syllabi must apportion final grades as follows: 40% Continuous Assessment (midterms, assignments, lab work) and 60% Final End-of-Semester Examination. Deviations must receive prior Dean approval.

## 3. Grade Moderation Procedure

To ensure consistency across parallel sections, the Department Grade Moderation Committee enforces the following standard procedure:

Step 1: The primary instructor submits provisional grades within 5 business days of the examination.

Step 2: A second marker is independently assigned to review any grade change exceeding 10 marks from the student's continuous assessment average. The second marker must provide written justification for agreement or adjustment.

Step 3: If the primary and second marker differ by more than 5 marks, the Department Chair appoints a third senior referee whose assessment is definitive.

Step 4: Any course section with a failure rate higher than 30% requires a mandatory committee investigation.
