Greenfield University

Official Student Handbook 2024-2025

Effective Date: August 1, 2024

---

1. Academic Enrollment and Course Registration

All undergraduate students must register for their semester coursework during the designated registration window. Course additions and section adjustments may be processed online through the student portal during the first two weeks of the academic term.

2. Course Withdrawal and Form F-12

Students wishing to withdraw from an enrolled course after the second week must formally submit Form F-12 (Official Course Withdrawal Request) to the Registrar's Office. Form F-12 requires the written endorsement of both the academic advisor and the course instructor. The final deadline for submitting Form F-12 is the end of Week 8 of the semester. Courses dropped with Form F-12 receive a 'W' grade on the official transcript, which does not impact cumulative GPA.

3. Computer Science Curriculum & CS-301 Prerequisites

The Department of Computer Science requires strict sequential completion of core foundations. Course code CS-301 represents 'Advanced Algorithms and Data Optimization' (4 credits). Prerequisites for CS-301 are CS-101 (Introduction to Computer Science and Programming) and CS-201 (Data Structures and Algorithms). Students must obtain a grade of 'C' or higher in both prerequisites before enrolling in CS-301. No prerequisite waivers are granted for CS-301 under any circumstances.

4. Library Access and Operating Hours

The Central Campus Library operates Monday through Saturday from 7:30 AM to 10:00 PM. During final examination weeks, the library operates on a 24-hour schedule. Students may borrow up to 5 books concurrently for a standard duration of 21 calendar days.

5. Student Identity Cards and Campus Security

Identity cards are issued by Student Services during freshman orientation. Lost cards must be reported immediately and incur a replacement fee of Rs. 500. Campus security conducts periodic spot checks at all main gates.
